

DIGITAL APPOINTMENT BOOKING SYSTEM — BUSINESS REQUIREMENTS DOCUMENT (BRD)

Version 1.0

1. Executive Summary

The bank intends to implement a Digital Appointment Booking System that enables customers to schedule branch appointments online for services such as mortgages, investments, account opening, and teller services. The solution will reduce wait times, improve customer satisfaction, and provide branch staff with better visibility into daily workloads. The system will be accessible via web and mobile channels and will integrate with internal branch scheduling tools.

2. Business Objectives

Objective ID	Objective Description
OBJ-1	Improve customer experience by enabling online appointment scheduling.
OBJ-2	Reduce in-branch wait times and walk-in congestion.
OBJ-3	Increase operational efficiency through predictable staff scheduling.
OBJ-4	Ensure compliance with regulatory and privacy requirements.
OBJ-5	Provide analytics on appointment volume, service demand, and branch utilization.

3. Scope

3.1 In-Scope

- Online appointment booking via web and mobile.
- Appointment types: mortgages, investments, teller services, account opening, general inquiries.
- Customer authentication (existing customers) and guest booking (new prospects).
- Branch availability calendar.
- Staff assignment and workload visibility.
- Email/SMS confirmations and reminders.
- Appointment modification and cancellation.
- Reporting dashboards for branch managers.
- Integration with internal branch scheduling systems.

3.2 Out-of-Scope

- Video banking appointments.
- Automated staff scheduling optimization.
- Walk-in queue management.
- Third-party calendar integrations (Google, Outlook).

4. Stakeholders

Stakeholder Group	Role
Customers	Book, modify, cancel appointments.
Branch Staff	View and manage daily appointment schedules.
Branch Managers	Monitor branch workload and reporting.
IT & Digital Channels	Support system integration and maintenance.
Compliance & Risk	Ensure regulatory adherence.
Marketing	Promote the new digital capability.

5. Business Requirements

5.1 Customer Booking Requirements

Trace To	BR ID	Description
OBJ-1	B1.1	The system shall allow customers to book branch appointments online via web and mobile channels.
OBJ-1	B1.2	The system shall allow customers to select an appointment type (mortgage, investment, teller, etc.).
OBJ-1	B1.3	The system shall display available dates and times based on branch operating hours.
OBJ-1	B1.4	The system shall allow customers to authenticate using existing online banking credentials.
OBJ-1	B1.5	The system shall allow new customers to book appointments without authentication.
OBJ-1	B1.6	The system shall send appointment confirmation via email and/or SMS.
OBJ-1	B1.7	The system shall allow customers to modify or cancel existing appointments.

5.2 Branch Operations Requirements

Trace To	BR ID	Description
OBJ-2	B2.1	The system shall provide branch staff with a daily appointment schedule.
OBJ-2	B2.2	The system shall allow staff to update appointment status (scheduled, completed, no-show).
OBJ-3	B2.3	The system shall allow branch managers to assign staff to appointment types.
OBJ-3	B2.4	The system shall prevent overbooking by enforcing capacity rules.

5.3 Notifications & Reminders

Trace To	BR ID	Description
OBJ-1	B3.1	The system shall send automated reminders 24 hours before the appointment.

OBJ-1	B3.2	The system shall notify customers of appointment changes initiated by the branch.
-------	------	---

5.4 Reporting & Analytics

Trace To	BR ID	Description
OBJ-5	B4.1	The system shall provide reports on appointment volume by branch and service type.
OBJ-5	B4.2	The system shall provide no-show metrics and cancellation trends.
OBJ-5	B4.3	The system shall provide staff utilization metrics.

5.5 Compliance & Security Requirements

Trace To	BR ID	Description
OBJ-4	B5.1	The system shall store customer data in compliance with privacy regulations.
OBJ-4	B5.2	The system shall log all appointment-related actions for audit purposes.
OBJ-4	B5.3	The system shall enforce secure authentication for existing customers.

6. Assumptions

- Branch operating hours are maintained in an existing internal system.
- SMS and email delivery services are already available.
- Customers have access to internet-enabled devices.

7. Constraints

- Must comply with banking privacy and security standards.
- Must integrate with existing branch scheduling systems.
- Must support both English and French.

8. Success Metrics (KPIs)

KPI	Target
Reduction in walk-in traffic	20% within 6 months
Appointment no-show rate	< 10%
Customer satisfaction score	+15% improvement
Branch scheduling efficiency	+25% improvement
Digital adoption rate	40% of appointments booked online

9. Risks

- Low adoption by customers unfamiliar with digital tools.
- Staff resistance to new scheduling workflows.
- Integration delays with legacy systems.
- SMS/email delivery failures.

10. Approval

(To be completed in a real project environment.)
